

Home from Home COVID-19 Response

[DONATE NOW](#)

Please partner with us, as we seek ways to prevent the spread of Covid-19 / Coronavirus, and continue our work to protect the most vulnerable children in our communities.

With nearly 200 vulnerable children in our care, some of whom are immune compromised, we need to provide extra care in protecting these children. We

have put together plans to educate our foster mothers and children about the virus and provide support for the foster homes as schools are closed for the next couple of weeks.

We are putting contingency plans in place and are looking for support with:

*Food parcels (non-perishable item such as rice, sugar, flour, milk, porridge, rice and canned foods)

*Hygiene items (toilet paper, tissues, soap, hand sanitiser and detergents)

*Books, puzzles, Arts & Crafts

*Data for foster mothers to stay informed

*And any other needs that may arise during the lock-down period

We would ask that you consider making a financial gift rather than donating physical items.

Please contact info@homefromhome.org.za

should you require further information.

CoronaVirus

Hi! My name is Corona Virus... and I loooove to travel the world, and jump from hand to hand to say Hi

Sometimes adults get worried when they read the news or see me on TV

LET ME EXPLAIN MYSELF!! COVID-19

When I come visit I bring difficulty in BREATHING, FEVER AND COUGHS

But I don't stay with people very long, and almost everyone gets better

Don't worry! The adults who take care of you will keep you SAFE...

IF YOU DON'T WANT ME TO VISIT, PLEASE FOLLOW THE STEPS BELOW

- By using hand sanitizer and letting it dry on your hands. Count 1,2,3,4,5,6,7,8,9,10 **NOW YOUR HANDS ARE DRY**
- By washing your hands with soap and water, while singing **HAPPY BIRTHDAY**
- Avoid **TOUCHING** eyes, nose and mouth
- Cover your cough and sneeze with a tissue and throw it away
- AVOID** close contact with **INFECTED** people

Myths

Do not believe this information it is not true

- BATH:** Taking a hot bath does not prevent the Corona Virus
- GARLIC:** Eating garlic is healthy, but do not prevent or cure the Corona Virus
- SPRAY:** Spraying alcohol all over your body will not kill the virus as it already entered your body
- DRYERS:** Hand dryers would not kill the corona virus, you should dry hands after washing it.
- MOSQUITO:** The Corona Virus **CANNOT** be transmitted through mosquito bites.
- AGE:** Only old people will be infected. (People of all ages can get the virus, older people are more vulnerable)
- NOSE:** Rinsing your nose with Saline will prevent you from getting infected. This is not true you can still be infected.
